## ABOUT

My name is William Sitarz, and I am the creator of 80AVisuals LLC, a 100% Veteran-Owned Video Production Company.

Alongside myself, the primary videographer, the company also consists of my brother, the primary editor, and we both take on sound and lighting technician responsibilities as needed.

At the age of 18 I joined the US Air Force and was trained to become an electrician. During that time I always loved being behind a camera, making short films, and documentaries for fun. As I got older that passion has never left, and in 2021, I was given the opportunity to quit the electrical profession and start down the road of professional video production. We've had the privilege of working with a variety of different companies from Sotheby's International Realty to the Great PNW and Seattle Seahawks!

## EDUCATION
